- **Code camp:** Responsive Web Design Certification (HTML,CSS).
- **Educhisel:** Beginners in Digital Marketing.

Skills

Design skills: User Research, Wireframing, Interaction Design, Responsive Design, Design Systems, Visual Design.

Technical Skills: HTML, CSS.

Tools: Figma, Sketch, Adobe Creative Suite.

Internship

UI/UX Design Intern - Smallfare Services Pvt Ltd,

Responsibilities:

- Collaborated with product managers and engineers to design user-centered solutions, including menus, tabs, widgets, and other interface elements.
- Created UI mockups and prototypes to showcase functionality, improving communication and resolving UX issues through user feedback.

Projects

- **Thrift App – Buyer Perspective (UI/UX Case Study)**

Designed a mobile app & website for seamless thrifting of clothing, furniture, and accessories, focusing on a smooth and engaging user journey.

- **Role:** Conducted user research, created wireframes, UI designs, and developed interactive prototypes to validate design decisions.
- **Solved key issues:** Addressed lack of trust in second-hand purchases, difficulty finding verified listings, and confusing user flows.
- **Delivered solutions:** Built a clean, minimal interface with smart filters, AI-powered quality tags, secure checkout, wishlist, and review system.
- **Tools:** Figma, Figjam, Photoshop & Illustrator
- **Outcome:** Increased engagement, improved buyer trust, and boosted overall platform conversions through intuitive design.
